E911

What you configure

Set an Emergency Call Notification Email and an Emergency Call Default Callback Phone on the business unit, un

If Telephone 1 is filled on the agent profile, that number is the callback instead of the business-unit defaul

Enter the physical address on the user record and save that individual record. The page says a bulk edit is no

The agent still needs an outbound phone skill.

What the agent does in MAX

US-based agents can type 911. A verified address routes to the local public-safety answering point. Otherwise

933 tests the configuration. The setup page says that test dial is at no additional cost. Real emergency calls

What this page will not claim

This lab does not list country availability, prices, or a SIP header for emergency calls. Those are account-re

Do not treat 933 as a substitute for a real dispatch test plan your own safety team signs.
